Above are optimistic loads.

Densities: Pink, Yellow, Green, Blue, Red, Black, Orange (1966), Purple, Gold (tow), Silver (skim) - 8% weight reduction between colours.

Experience notes: Natural (moulded) rocker is shown. M08 is the most popular rocker in all sizes since 2008. Very popular for modern shapes. Can be rockered to do many things. Enough volume for hand or machine shaping.

Deep cutting may require heavier densities like Red or Orange Foam.
