Above are optimistic loads.

Densities: Pink, Yellow, Green, Blue, Red, Black, Orange (1966), Purple, Gold (tow), Silver (skim) - 8% weight reduction between colours.

Experience notes: Natural (moulded) rocker is shown. M08 is the most popular rocker in all sizes since 2008. This very versatile blank will make every kind of longboard including hipped pigs. Rocker it to suit (H96 Gun) and it will make a high volume gun (after outline change). Deep cutting may require heavier densities like Red or Orange Foam.
