Above are optimistic loads.

Densities: Pink, Yellow, Green, Blue, Red, Black, Orange (1966), Purple, Gold (tow), Silver (skim) - 8% weight reduction between colours.

Experience notes: Natural (moulded) rocker is shown. M08 is the most popular rocker in all sizes since 2008. General purpose blank, long enough to make a pig if the tail is cut back. Rockered with H96 profile it will make a high volume gun (after outline adjustment). Deep cutting may require heavier densities like Red or Orange Foam.
