Above are optimistic loads.

Densities: Pink, Yellow, Green, Blue, Red, Black, Orange (1966), Purple, Gold (tow), Silver (skim) - 8% weight reduction between colours.

Experience notes: Natural (moulded) rocker is shown. M08 is the most popular rocker in all sizes since 2008. A general purpose high volume mid length blank that could shape into just about anything with the right rocker glued in.

Deep cutting may require heavier densities like Red or Orange Foam.
